### REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

Are Closing Sales Each Day.

New York, Dec. 7.-The prospect of a decline in cash reserves of the banks of upwards of \$7,000,000 proved too much for the fortitude of speculators to-day and they sold stocks, reversing the move-ment of yesterday. They had the advan-tage of new points of strength in a num-ber of individual stocks amongst the low priced ones, a demoralized tone in one or priced ones, a demoralized tone in one or two of the industrials more than offset this advantage. The sub-treasury alone has taken up from the banks during the week \$6,100,000 including the deposits at the sub-treasury for telegraphic transfer to the interior. The direct movement by express, although supposed to be small on balance, is certainly in favor of the interior. There is a suspicion also that the local movements of cash, which have helped out the showing of the banks for the last few weeks, is not to be relied on this week. Those gains have been due to a large extent to the operations of a single bank, in which is centered some of the most important interests in the financial world, including copper mining stocks. The course of Amalgamated Copper during the week has given rise to the apprehension that interests identified with it need not be expected to have taken measures to conserve the general money market situation. The loan item also is the subject of much perplexed surmise. While there has been some speculative liquidation in the stock market there has been some large borrowing for outside financial operations, including subscriptions to a \$10,000,000 issue of Third Avenue Haliroad bonds, which also closed to-day with the announcement that it had been largely over-subscribed. If there has been any considerable loan expansion double effect on the surplus reserves may prove somewhat sensational especially with the most trying period of the year on the money market to be immediately faced. Liquidation was not urgent in the stock market, but was quite general. Even the Erie securities yielded temporarily on the denial of a story attempting to explain their movement by alleging that the company had purchased the Pennsylvania Coal Company. Both the stocks and bonds, however, railled subsequently to top prices. Bestdes this, strength was shown by the St. Louis and San Francisco stocks, led by the second preferred, with an advance of 2%. and the result of the meeting of the lunited States Rubber Company

The Cotton Markets.

The Cotton Markets.

NEW YORK COTTON MARKET.

New York, Dec. 7.—The cotton market to-day was more active and prices ruled decidedly lower under heavy realizing, cluicity owing to the large amount of cotton coming in sight. New Orleans gave occasional support, but as a rule Southern orders went to the selling side of the account. Private wires intimated that spot holders were becoming very uneasy in view of the low bids of spinners and exporters. The market met with the disadvantage at the outset of weak cables and opened at a decline of 366 points. Later the amount coming into sight became the factor and the decline was increased 169/19 points. A few feeble rallies were made, but these were due rather to covering than to any manifestation of inherent energy. The market was finally barely steady at a net decline of 13618 points. The prevailing feeling of depression was increased by an unsatisfactory demand from spinners in this country as well as abroad; an unsatisfactory demand for cotton goods and disappointment regarding the attitude of the speculative public included in to-day's selling was a larger proportion for short account than heretofore the rule.
